Bowie, president, conducted the meeting and gave an account of the Y. W. C. A. summer conference in Monte Ne, Ark., to which she was sent as a delegate from the local association. Mrs. Bowie spoke about the rural work particularly, which has been recently adopted by the state of Texas, being the fifth state in addition to the city associations and student associations in all the principal colleges.

Following Mrs. Bowie's report, the reports of the different branches of the association were read. The treasurer's report will be read Tuesday night in the association rooms. Mrs. Howard Durkee is planning for a set of study classes for the members of the El Paso study classes, preparatory to beginning the fall work, and plans are being made for the reception to be given Miss Alice Davis, physical director on her arrival in October. Of these a number of the girls were immigrants, Polish, German, Finnish, Austrian, Syrian, Italian, Irish and English. Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

It is made of double faced blanket material, showing decided knots of red in the ground and black stripe. The reverse side is light gray, and all edges are bound with gray silk braid. The sleeves are cut with the long armhole, and tablike extensions on the upper and lower sleeve are buttoned to the sleeve in such a manner as to simulate a wide cuff. The hat is a favorite shape for the season and is faced with a satin puff. The only trimmings is a fancy bunch of feathers, showing brilliant remixed with gray.
